

LuitBiz is an on demand business applications suite that allows your organization to streamline your business processes. LuitBizís helps organizations to centrally manage their valuable business assets in real time giving a top-to-bottom visibility of all organizational assets. The results? Decreased costs; increased productivity and quality; better alignment with corporate strategy objectives; standardized business processes; integrity of organizational knowledge. Currently LuitBiz has ERP, CRM, HRM, document management, knowledge management, Collaboration, Employee Self Service and website functionalities.

Implementation Model

LuitBiz is a web based system that uses the SaaS model. This means that you do not have to install any hardware or software in your premise to access LuitBiz. LuitBiz is hosted by Luit Infotech in their servers. To access LuitBiz, all you need is a web browser in a computer with Internet access. You can login to your LuitBiz using the web browser and access LuitBiz from anywhere in the world.
